Re: Latex-Free Facility

To Whom it May Concern,

Thank you for your inquiry. The following letter is provided in response to your request for information. Unless otherwise indicated, the information provided herein is based upon information from raw material suppliers, final composition of the product and Foster's manufacturing process.

Latex

21 CFR 801.437 requires labeling of all devices composed of or containing, or having packaging or components that are composed of, or contain, natural rubber that contacts humans. The term "natural rubber" includes natural rubber latex, dry natural rubber, and synthetic latex or synthetic rubber that contains natural rubber in its formulation. We are pleased to confirm that Foster, LLC is a latex-free facility.

Please be aware that Foster, LLC does not perform any specific analysis to detect the presence of any contaminating substances. If you have any doubt relating to the current correctness of this declaration or questions arise, please do not hesitate to contact us for further assistance.

This information is given without legal responsibility. Customers should test under their own conditions to ensure that the material is suitable for their own requirements. If you have any additional questions or require any additional information, please do not hesitate to contact the Foster regulatory department.
